Reagent Solution

Axis House was established in 2001 and is a global supplier of reagents and technical services to the mining industry.

The company employs experienced Chemists, Geologists, Metallurgists and Process Engineers. This diversely skilled team adds value along the entire production process chain.

Our regional metallurgical laboratories are fully equipped with milling, flotation, sedimentation, leaching and analytical equipment. It is in these laboratories that molecules are developed and modelled.

Axis House formulates, manufactures, stocks, distributes, implements and finances a full range of mineral processing reagents.

MINING CHEMICALS

PROPRIETARY FLOTATION TECHNOLOGY

- AM™ Series of Patented Hydroxamate Collectors for selective flotation of Base Metals Oxides, REO & Industrial Minerals
- Rinkalore™ Series of Collectors for selective flotation of Base Metals Oxides, REO & Industrial Minerals
- DLQ, ELQ, MLQ & TLQ Series of Liquid Sulphide Collectors

PRIMARY COLLECTORS

- Xanthate Collectors
- Modified Fatty Acids

SECONDARY COLLECTORS

- Dithiophosphates
- Dithiocarbamates
- Thionocarbamates

FROTHERS

HydroFroth™ Range

- Ore specific tailored specialty Frothers
- Non Hazardous
- High flash point

SULPHIDISING AGENTS

- Sodium Hydrosulphide (NaHS)
- Sodium Sulphide (Na₂S)

DEPRESSANTS

- Revadep Range for Fe, Talc & Mica
- Modified CMCs
- Starches
- Guars
- Specifically Tailored Depressants targeting various Gangue
- Sodium Silicate

PROMOTERS INDUSTRIAL MINERALS

- Unicol Series

THICKENER REAGENTS

- Brontë PAM Flocculants

HYDROMET REAGENTS

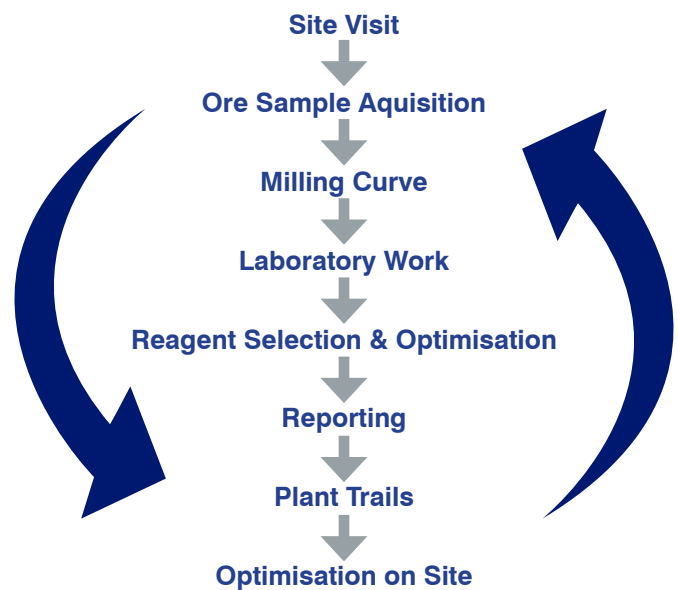

- ALC7G Smoothing Agent
- Magnesium Oxide
- Soda Ash
- Sodium Metabisulphite
- Lime
- Acids
- Diluents

LAB CHEMICALS
